

STANDARD OF QUALITY

■ Every component of your Continental Tape Recorder is designed and "guild-crafted" by world famous Philips of The Netherlands, to satisfy the highest standards of quality and reliability.

■ The tape head, heart of any tape recorder, is made of the world's finest tool steel, then mirror polished to perfection — to assure you long life and uncompromising sound quality, even at the slower speed.

■ The speaker has been specifically designed and matched to the exact characteristics of your Continental 101, assuring you the most faithful sound reproduction. It contains a special magnetic material, Ticonal 7, Philips designed, which makes possible a lighter more compact construction with vastly improved sound quality, distortion free at higher volumes.

■ Every switch is gold coated to guarantee absolute dependability and complete ease of operation for both record and playback.

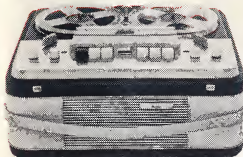

■ And every Continental Tape Recorder is fully tropicalized, moisture- and fungus-proof for rugged reliability wherever you go. Sold and serviced throughout the Free World.

OTHER *Norelco*[®] Quality Tape Recorders

The Little Tape Recorder with the Big Sound.

NORELCO 101 TRANSISTOR PORTABLE

Norelco®

CONTINENTAL 101 SPECIAL FEATURES

Long Range

Extra sensitive dynamic microphone picks up sound from the farthest points, in classroom or concert hall. Tape everything from normal voice recordings to lectures, to concerts, to bird calls, with a perfect playback every time. Listen to full range wide frequency sound (80 - 8000 cps) the best quality of any tape recorder its size. Even dial in your favorite tone, with variable bass/treble tone control.

Long Play

Record up to three hours on a 4 inch reel of tape. Get broadcast quality playback with no variation of tape speed at beginning or end. (Note: tape load governs the

speed of inferior tape machines. Tapes run too slow at beginning, too fast at end). With Norelco's capstan drive you get constant speed operation and perfect reproduction from start to finish.

Long Life

100% transistorized construction with solid state circuitry add years to the life of your Continental Tape Recorder. You get instantaneous operation, trouble-free performance (no tubes to burn out) and minimum battery drain, up to 40 hours recording life on six ordinary flashlight batteries that can be bought anywhere.

Norelco[®] CONTINENTAL 101

Solid State Circuitry
Self-contained — no tubes to replace.

Dynamic Microphone
Ultra sensitive at great distances.

Constant Tape Speed
make broadcast quality recordings.

Bass-Treble Tone Control
*big sound — highs and lows
as you like them.*

■ As simple to operate as a portable radio. Works on six ordinary flashlight batteries. Push two buttons, you're recording. Push one button you're playing back. Dial in your favorite bass/-treble tone. Get *big sound*, clear as a bell, loud as you want it. Rewind? Fast, in a matter of seconds.

■ Ruggedly built, yet weighs only 7 lbs. Can be worn over your shoulder like a camera in its deluxe leather carrying case (available as an accessory).

■ You can record with the high quality microphone that comes with the Continental 101 or use the patch cord and hook up to a radio or phonograph. You can playback music/voice through your own radio, TV, even high fidelity system.

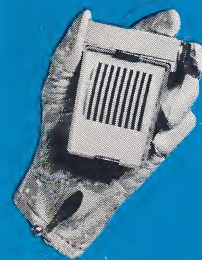

■ OTHER FEATURES: Superior recording capability lets you play tapes on any 1 $\frac{7}{8}$ ips two track recorder with no distortion or loss of sound quality. Single control handles both recording and playback. Window indicator shows best recording level plus exact battery condition. Transparent plastic cover protects assembly and tape from dust or damage. Tape guard automatically releases tape from contact with magnetic head when recorder is not operating or when you are rewinding tape thus eliminating tape scratch.
